## PROFILE

Full Stack Web Developer and AWS certified cloud practitioner. Critical thinker and a team player. Years of hands-on experience in various web frameworks and stacks. Highly motivated and focused on understanding client requirements as well as delivering beautiful and efficient end products.

## PROJECTS

### Personal Blogging Platform [July 2021 – August 2021]

*AWS EC2, Caddy, Ghost CMS*

Personal blogging platform ran on a subscription-based Ghost CMS. It is hosted in a caddy server and currently has a single blog explaining how to create and host a blogging platform.

### Portfolio [August 2021 – Sep 2021]

*Angular, Sass, Formspre*

Portfolio website showcasing my skills and experiences.

### Boujie Apparels [Jan 2021 – Present]

*React, Redux, Typescript, Express, MongoDB*

E-Commerce website where users can sign in with google and make orders or even post products depending upon the roles provided. Currently experimenting with Postgres with TypeORM.

### Vacancy Announcement App [February 2019 – Sep 2019]

*React, Redux, Express, MongoDB, REST*

Bachelor Final Year Project. Experimenting with MERN stack. Authentication and posting capabilities.

## SKILLS

**Frontend:** *React, Redux, Vue, Vuex, Angular, HTML, CSS (Sass, bootstrap, styledcomponents), JavaScript, Typescript*

**Backend:** *Node, Express, REST, AWS API Gateway, Lambda*

**Databases:** *MongoDB, Postgres, MySQL*

**Devops:** *Netlify, Heroku, Git actions, Caddy, AWS EC2*

## EDUCATION

### Amazon Web Services Training

*AWS re/Start*

*[Graduated in June 2021]*

### Metropolia University of Applied Sciences, Espoo
